

SANTA FE NATIONAL FOREST

SITE STEWARD AREA TEAM LEADER MANUAL

I. MISSION STATEMENT

Site Steward Area Team Leaders (ATLs) are committed to leading and monitoring heritage resource preservation activities within a defined area of the Santa Fe National Forest (SFNF) to minimize damage caused by vandalism, theft or natural forces.

II. SITE STEWARD AREA TEAM LEADER

1. Certified in accordance with requirements in Santa Fe National Forest Site Steward Manual
2. Acquainted with defined area
3. Served as site steward in the Santa Fe National Forest
4. Acquainted with every assigned site in defined area within one year of appointment

B. RESPONSIBILITIES

1. Provides leadership for area team
2. Assures that all area site stewards have signed the Forest Volunteer Agreement (U.S. Department of Agriculture Forest Service Agreement for Individual Voluntary Services) and the Job Hazard Analysis (JHA) form prior to beginning field work
3. Provides initial site orientation and field training for new site stewards. Site location, site map, and site description information is given to provisional stewards to permit independent monitoring of assigned sites. It is the ATL's decision when provisional stewards may monitor field sites without being accompanied by a certified steward
4. Provides continuing orientation/training for both provisional and certified site stewards as needed
5. May consult with the Heritage Resource Program Manager (HRPM) regarding transfer of complete site files to provisional stewards when the steward has
 - a. Demonstrated continued commitment to the preservation ethic
 - b. Demonstrated a strong interest and enthusiasm for the Site Steward Program
 - c. Completed two or more site visits without the ATL accompanying the steward on those visits
 - d. Submitted complete and timely site visit or Heritage Resource (HR) reports to the HRPM
3. Complied with all aspects of the site steward code of conduct
6. Assigns provisional site stewards to designated site/s. Where possible, team with a certified steward
7. Instructs and assists new site stewards in completion of required reporting
8. Participates with HRPM and district archaeologist in identifying new sites to be monitored
9. Develops site file for each assigned site

10. Develops plan for site monitoring frequency in collaboration with HRPB and district archaeologist
11. Confirms that assigned sites in area are being monitored
12. Identifies limitations that may restrict site visits including safety concerns
13. Communicates with team members regarding site visits, associated activities, etc.
14. Responsible for team records; duties include:
 - a. Reviews online records and activities of team members for accuracy and completeness
 - b. Ensures that all team members gain proficiency in online reporting
 - c. Sends corrections to web reporting system as needed
15. Communicates with HRPB and district archaeologist on field activities as appropriate
16. Presents quarterly summary report of sites' condition/activity to the site steward council
17. Responsible for recommending for council approval and mentoring an assistant area team leader/s (AATLs) as appropriate
18. Assigns duties to the AATL/s as appropriate. At a minimum, the AATL acts on behalf of the ATL when the ATL is not available to members of the team
19. Recruits potential new site stewards
20. Reviews site steward conflict of interest per code of conduct
21. Responsible for discipline in monitoring operations in accordance with the Site Steward Manual

 - a. Records of assigned sites by priority
 - b. ATL site monitoring plan

V. RELATIONSHIP TO SITE STEWARDS

A. SITE STEWARD ASSIGNMENTS AND REASSIGNMENTS

1. Council with concurrence of PRPM and based on request of steward and team needs as expressed by the ATL, assigns, reassigns or transfers site stewards to teams
2. ATL assigns or reassigns site stewards to specific sites

B. ATL ROLE IN NEW SITE STEWARD TRAINING

1. Participates in new site steward training and may participate in training committee
2. Subsequent to classroom training, ATL provides field orientation/training in accordance with the Santa Fe National Forest Site Steward Manual

C. TEAM ORGANIZATION

1. ATL prepares a team plan to cover assigned area
2. Site visits are conducted in accordance with the Site Steward Manual

D. EXCEPTIONS TO SITE VISIT PARTICIPANTS

Any and all observers on an official site steward visit MUST be approved by the heritage resource staff

VI. SITE FUNCTIONS

A. SITE MONITORING PLAN

The ATL organizes site visits with the following priorities in mind:

1. Relative priority as assigned by the HRP
2. Safety of site steward
3. Visibility of site
4. Public awareness of site

B. SITE/AREA REPORTS/LOGS

1. Ensures that stewards complete site visit reports and maintain activity logs
2. Communication between the ATL and site steward takes place as defined by the ATL
3. Heritage resource reports are completed according to the procedure in the Site Steward Manual
4. Heritage resource reports are completed only if significant change has been noted at the site, whether by human or natural causes
5. Site steward submits HR report to HRP with guidance from ATL, if needed

D. REPORT OUT-REPORT IN PROCEDURE

1. Reports are made to ATL, including information about planned site visits, time of return, change in route, people going, etc. (Report Out)
2. In the absence of the ATL, reports are made to the AATL. In the absence of both, reports are made to the HRP

3. In the event a site steward or team of site stewards does not Report In from a site visit:
 - a. The ATL calls the site steward's home and (if known) their cell phone
 - b. If no contact is made, the ATL contacts the HRPM on home or cell phone to determine further action
 - c. The forest dispatcher should NOT be called prior to consultation with the HRPM

VII. AMENDMENTS

Amendments may be proposed by any steward, then discussed and adopted/rejected by the council in concert with the HRPM. Any changes will be inserted into the Site Steward Manual and Council Manual
